

## Why choose Davison Highley Furniture?

- **British manufacture**

Every piece of furniture we produce is designed and manufactured in Great Britain, from our High Wycombe workshops and we try to source all our legs, feet and components from local sources where possible.

- **Sustainable design**

All our frames are constructed from FSC sourced WISA-spruce plywood. We try to use as much aluminium as possible when designing legs and components, due to the materials good recycling properties and we work with our suppliers to ensure the supply of environmentally ethical materials and components.

- **Attention to detail**

Everything we manufacture is made by our team of highly skilled crafts-men and women. From the frames which are stamped and signed by each maker to reflect the pride and confidence they have in their work, through the foams and fillings which are cut, carved and laminated to produce precisely the right level of comfort, to the perfectly sewn seams and the hand tailored upholstery, which doesn't leave the factory until it is 100% perfect.
